

The Urban Inc. Pledge (**Our Intent**)

For the next 12 months (01/01/2026 – 01/01/2027) I will be of service to my community by:

1. **Diverting 365,000 print cartridges e-waste from local landfills** (based on scaling collection partnerships)
2. Establishing 50+ community collection sites across San Antonio
3. Providing 300+ businesses and schools with sustainable print recycling solutions
4. Reducing printing costs by 30–60% for participating organizations
5. Helping to generate sustainable community revenue to support Urban Apostles Community peer-support programs in being self-supporting and practicing the 7th

My pledge is not a legal contract of any kind nor am I legally obligated to do any of the above.

However, MY pledge is MY commitment to personal accountability. MY individual acknowledgment, to know better and to do better in preserving sustainable environmental health for my children's-children's future well-being. Finally, it represents MY personal intent to contribute to the Urban Apostles unwavering commitment and support for Bexar County Youth Progress.
